Dear Parents

Your views are important to us and I would be very grateful if you could take some time to complete the attached survey with regards to homework.

As our schools embrace a culture of self-directed learning our attitudes towards homework and the nature of home study need to change. Students will need to become more independent in managing their time and parents will need to be able to understand ways to support their children at home. In light of this we will need to offer support and guidance to staff, parents and students and your opinions will help us formulate this effectively.

The survey can be accessed via the attached link.

<https://www.surveymonkey.co.uk/r/YNJKWNF>

Many thanks for your help and support.

Yours sincerely

Caroline Gray
Regional Principal
